Emergency Notification

Parking Lot

There have been several concerns raised about unsafe driving in the school parking lot during pick up time. We have had parents and staff members observe the parking lot during dismissal, and many days it is unsafe for children. Occasionally, we have witnessed parents driving too fast and attempting to back up while children are crossing near their cars.

Ideally, unless a family needs handicapped parking, people should avoid parking in the lot and leave the spaces for staff and bus pick-up. Walking to get students, parking in the Deering High School lot (after their students have been dismissed at 2:30), or parking on one of the side streets would be preferable.

If you must park in the lot because you are volunteering or have an appointment in the school, please be aware that there are children walking, boarding the bus, and waiting for rides. We ask that you drive slowly and avoid backing up while children are exiting the building and crossing the lot.

If we do not see an improvement in how cars are operating in the lot, we will be forced to close the lot to families arriving at dismissal time.
